THE BLURB

is published monthly by and for the members of The PHIL-MONT MOBILE RADIO CLUB, INC. Our purpose is to promote Amateur Radio in general, and Mobile Radio in particular. Copying and quoting is permitted with a credit line. We gladly exchange publications with other amateur radio clubs; requests should be sent to the Editor. BLURB subscriptions are available to non-members for \$6.50 addressed to the Treasurer. The club meets at 8 PM on the first Monday (except holidays) of every month at The Franklin Institute, 21st Street and the Benjamin Franklin Parkway, Philadelphia. Use the rear entrance. ALL VISITORS ARE WELCOME!
Amateur Radio License Examinations - Every meeting night at 6:30 PM.

CLUB INFORMATION

Mailing Address: P.O. Box 88, Abington, PA 19001
24 Hour Information Number: (215) 448-1139

STATIONS

W3QV - 147.03 Mhz. Repeater - 8200 Ridge Avenue, Philadelphia, PA - Trustee W388B
W3RQZ - 1176 Old York Road, Abington, PA - Trustee W3VVS
W3TKQ - The Franklin Institute, Philadelphia, PA - Trustee W3PWG
W3TKQ Operators: WA3AAL, Fred; N3ABS, John; K3TEF, Frank; KA3PJC, Jack; W3PWG, Rollic

OFFICERS

PRESIDENT: KA3BET, Fred Reichert, Sr.
1062 Quarry Hall Road, Fairview Village, Norristown, PA 19403
VICE PRESIDENT: W3CMM, Bill Mescanti, 405 E. Rively Ave., Aldan, PA 19018
SECRETARY: N3EAY, Bob Ricker, P.O. Box 93, Zieglerville, PA 19492
TREASURER: KB3IV, Ed Masarsky, 15 Poe Avenue, Wyncote, PA 19095

DIRECTORS

AK2I (87); W3RM (87); W3VVS (88); W3ZPP (88); ????? (A); ????? (A); ????? (A)

BLURB STAFF

Editor: W3PST, Woody Haldeman, 125 Keeley Ave., New Britain, PA 18901
Art Work: Sam Kunceovich
Typist: W3IIN
Assistant Editors: W3IIM & W3KOJ
Swap 'n Shop: W388B

DEADLINE: To be assured of publication in the current month, all copy MUST be in the hands of the Editor at the Bored of Directors' Meeting.

Phil-Mont Net Schedule

Sunday	Mon	Tuesday	Wednesday	Thursday	Fri	Sat
09:30 147.030 MHz FM		20:00 147.030 MHz FM	20:00 147.030 MHz FM			
10:00 29.000 MHz SSB		Personalized CW	Triple B-S			
10:20 3.993 MHz SSB		Practice Net	Swap Net			

and from the rear seat - - -

First of all, one person cannot get this rag to the post office alone, nor can he (or she) get it on its way while on vacation in Arizona, or while he (or she) is in the hospital. But the show must go on! And IIN, IIM and KOJ and some others, I suspect, made darn sure that it did. There was a price to be paid, ow, my poor budget. But seriously, they, with their coputers and printers, AND Sam Kunceovich, make this job so much easier. Now, if I could only get this column ready in time, the printing would be more uniform. As you might have read elsewhere in this issue, SGR has been declared the winner, the top winner, the only winner of a full paid membership for one year in Phil-Mont. Congratulations, Cahrahl, and thanks.

NEW OPERATOR

Welcome to KA3PJC, Jack Kramer, our newest operator at our club-sponsored station, W3TKQ, in the Franklin Institute.

"I can't shovel snow—I'm on my way to the fitness center."

SAM'S OTHER CORNER
 HAVING BEEN HOODWINKED INTO ATTENDING THE DEC. 86 MEETING, I WAS ABLE TO WITNESS THE JUDGE WAPNER GILES RE KB3JW CONDUCT THE PRE ELECTION CEREMONY ALSO, ROULIE MADARA W3PWG WITH THE START OF CALL LETTER LICENSE PLATE COLLECTION SOON TO GRACE THE WALLS OF TKQ. GOT ANY TO DONATE?

SPECIAL NOTICE

At the February general meeting a vote by the general membership will be taken on the following proposed change to the bylaws:

In Article 12, Section 8 of the bylaws dated Dec. 1, 1979:

Delete the words "... and no officer who has served two consecutive terms shall succeed himself in such office."

Section 8 will then read in total as follows: "The term of office of an officer shall be for one year, commencing January 1st."

SOCIAL COMMITTEE CHAIRMAN RESIGNS

Jack, W3IIM, has long felt that fresh ideas are needed for any organization to survive and prosper. Phil-Mont has many members who have much to contribute if only they are asked. Now is the time for someone new to come forward to help plan the social agenda for the coming year. How about YOU?

NEW BLURB ADDRESS
 125 Keeley Ave., New Britain, PA 18901

SAM'S CORNER
 THANKS TO CHESTER WA2YDS., THE 'BIG EAR', HAS BEEN LISTENING IN ON PHILMONT... 7 DAYS A WEEK AT ALL HOURS. WHO KNOWS, CHET MAY EVEN PUSH ME BACK ON PHILMONT'S ACTIVE MEMBER LIST WITH A HAM TICKET NO LESS!

MINUTES November 1986 DIRECTORS' MEETING

KA38ET opened the meeting, held at the home of AK2I, at 8:59 PM on November 19th. In attendance were W3's, BBB, IIM, IIN, IRS, RM, SGR, K3GBA, N3DHI, KB'3 IV, JW, WB3CMM and KC2HX.

KB3IV gave the Treasurer's Report which was approved as read.

N3DHI reported that the Awards Committee had met and selected candidates for the awards in December.

Fred said that he had received a phone call from W3SRU and had obtained Gil's new address and phone number.

Fred also mentioned that the DVCARCs was arranging for volunteers to help with the Thanksgiving Day parade. A discussion followed of the Ham's role in this and other events of this type. The opinion of those present was not to present it as a club activity but to advise our members in the event they wished to participate on an individual basis.

Fred then read a letter from the Veteran's Administration commending Frenchy, W3IRS, for his assistance during the NDMS drill and the participation and support from the ham community.

W3888 reported that he had a letter from DVCARCs requesting us to furnish radio operators for the Bicentennial station in 1987. It was suggested that W3TKQ be used for this operation. This was tabled for future discussion.

W3888 asked the board to give him a selling price for the Collins KWM 380 from the estate of W3EM. After some discussion it was agreed that Jim should check the yellow sheets and set a price.

N3DHI reported that the Edge Hill Fire Co. chief has asked Rick to serve on the mass disaster planning committee for Abington Township. Rick will be able to make sure that Mo-Com will be used to its best advantage.

Fred reported that the Nominating Committee had met and the slate of candidates for office had been announced on the Sunday 2m net. Fred read the proposal to set aside the bylaws for the December election, which was published in the BLURB. After much discussion, a motion was made and passed unanimously to set aside the bylaws for this election.

W3IIN reported that the Budget/Audit Committee had met on November 10, 1986 and formulated a working budget for 1987. Copies were submitted to the board for approval. The budget was approved and adopted by the board and will be published in the December BLURB.

The meeting was adjourned at 10:41 P.M.

Thanks to Jake and Lorraine for their hospitality and the great cheese cake.

W3IIN Hon. Secretary.

READ ALL ABOUT IT!

The January issue of QST Magazine has an article of local interest regarding the recent Upper Dublin antenna ordinance. The club secretary, and Ray, KB3JW, have a complete copy of the ordinance if anyone would like to see it.

BUSINESS COMMUNICATIONS

The following letter is reprinted with permission from the ARRL's FCC Rule Book, 5th Edition. It was written by FCC Private Radio Branch Chief Robert Foosaner in response to questions regarding amateur participation in the New York City marathon.

"This is in response to your letter of October 15, 1984, concerning providing amateur radio communications at the New York Road Runners Club marathon. The Commission addressed the matter of business communications in the Amateur Radio Service in the Order released July 12, 1983. You will note that the term 'business communications,' as defined in Section 97.3(bb) of the Rules, is used in the broadest context. It includes all types of communications which are intended to facilitate the regular business affairs of any party, whether for-profit or not-for-profit, etc. Thus, the determination as to the types of amateur radio communications that your group could provide at a marathon would not be affected by the profit objectives of the sponsor, not by the pay status of other participants.

"A fundamental guideline that should be observed in these instances is also stated in the Order: "...the Amateur Radio Service should not be used as an alternative to the land mobile, broadcast, maritime or common carrier radio services, all of which have been established by appropriate regulatory processes." To the extent that these other radio services can be used to perform the necessary communications, such communications should not be transmitted by amateur radio.

"Section 97.110 of the Rules, which prohibits business communications by amateur radio, does not prohibit amateur radio operators from participating in a marathon as a public service activity. Although some communications transmitted could incidentally benefit a sponsor, we do not view such communications as violations of the rules where their main purpose is to provide a service to the public.

"In your letter you describe three specific services which amateur radio could provide. The first is a medical network, by which race authorities could be notified of a runner's need for medical attention. This medical network is, of course, acceptable.

"The second service is logistical. Amateur radio operators would provide the communications necessary to facilitate the public's safe observation of the event. Clearly there is benefit to the race sponsor, but it is incidental; the principal beneficiaries of this would be the runners and the public.

"Finally, there is the lead-runner position network. As you acknowledge, the purpose of this is to facilitate a system whereby the public, including, presumably, the news media, are informed of the progress of the race via amateur radio. This runs afoul of Section 97.113 of the Rules, which prohibits the dissemination of radio communications intended to be received by the public. If you wish to provide this service, we recommend you do it on commercial frequencies with other equipment. Amateur radio operators could participate in this phase, but not by virtue of their amateur licenses.

"Please inform your group that their licenses are not endangered by participating in the marathon. They have my support and my personal thanks for serving the public."

.... AND THE WINNAH IS

W3SGR!

A free (worth 14 bucks) membership for 1987, courtesy of the BLURB. Thanks for all the articles, Carl! That's showing 'em. There's more than one way to get a "senior citizen's discount!" Congratulations from the BLURB staff.

Continued from page 8

PLAN "B"

A somewhat less elaborate station could be set up, with or without the video display, if all equipment were physically disconnected and secured in an available locked room when not being operated. This would make the operation more cumbersome, but would simplify security.

PLAN "C"

Each club would provide their own equipment and be responsible for security, although overnight storage could be arranged. Only the antenna feedlines would be "permanent".

If this proposal is acceptable, DVCARC should authorize me to submit the Special Event Permit application and should begin the process of stockpiling the required equipment and antennas as donations/loans become available. Each club wishing to participate should be required to join the DVCARC, although the need for supplemental cash donations will need to be determined.

As an aside, there are several other events which could benefit from a Ham Radio demonstration, including the Girl Scouts' 75th Anniversary "Promise Circle" (Judge Lewis Quadrangle, Roosevelt Mall, and elsewhere, March 12, 1987), Girl Scout Jamboree (Philadelphia Civic Center, May 2, 1987), and others listed in the "We the People 200" Calendar of Events. All clubs should be advised of these opportunities which should be coordinated for informational purposes only with the DVCARC. Of course, the Special Events Station at the Visitors' Center must be given first priority until all weeks have been assigned.

VOYAGER

The ARRL Newsletter reports that the pilots of the round-the-world-without-refueling flight are both Novices; K86LQR & K83LQS.

MINUTES December 1986 GENERAL MEETING

KA3BET opened the 445th General Meeting of the Phil-Mont Mobile Radio Club at 8:20 P.M. on December 1st.

K83IV gave the Treasurer's Report, which was approved as read.

W3VVS reported there were 41 members and 6 visitors present. Paul introduced Jim Dreasy, WA3TPF; Lou DeBenedetto, Jr.; Mim Roeshman, XYL W3LKI; Sharon Masarsky, XYL K83IV; Sam Kuncevitich; and Walt Rauschel, N3EVV.

Fred read a letter from the Delaware Valley Council of Amateur Radio Clubs on the Special Events Station for the Bicentennial Celebration of the U.S. Constitution in 1987.

W3YLT gave an update on the Thanksgiving Day parade. He said that all the Hams handled themselves very well and all had a good time, despite some of the poor planning.

N3DHI reported that Mo-Com had travelled approximately 375 miles during 1986, and may have to have some engine work done in the spring. Part II of the training for Mo-Com will be held in the spring when the weather warms up.

W3PWG reported that there was no heat in the ham shack at the Institute and they were using the radics for much needed heat. Rollie is still looking for Ham license plates for the shack.

N3DHI, chairperson of the 1986 Awards Committee thanked his committee for their efforts and presented the awards for 1986.

W3PWG received a special appreciation award for his work at W3TKQ.

W3SRU received the LeRoy Hauser Memorial Award for his special service work.

AK2I received the Phil-Monter of the Year for his work on the VE program.

Sam Kuncevitich, our resident BLURB artist, received the George Weed Memorial Award for his contributions to the BLURB.

After a short refreshment break, K83JW our Judge of Elections, introduced the candidates for office, who all had a word or two to say. And then the voting began. After all votes were cast and counted the results were:

KA3BET - President	W83CHM - Vice-President
N3EAY - Secretary	K83IV - Treasurer
W3VVS - Director	W3ZPP - Director

The meeting was adjourned at 10:15 P.M.

Hon. Secretary, W3IIN

SPECIAL COMMITTEE

The President will appoint an ad hoc committee to evaluate the club's current repeater status, and make recommendations on future development. Names of the appointees are not yet available.

MINUTES
December 1986
DIRECTORS' MEETING

KA3BET opened the meeting, held at the home of W3AA and WA3YJR, at 8:08 PM on December 17th. In attendance were W3's, 888, IIM, IIN, IRS, SGR, ZPP, UY, VVS, GQD, LKI, K3's G8A, GNM, KB3 IV, JW, N3's DHI, EAY and WB3CMM.

KB3IV gave the Treasurer's Report which was approved as read.

N3DHI reported that Mo-Com was resting for the winter, but would need some work done in the spring. Rick said he will attend a meeting of the Abington Township Disaster Planning Committee on January 7, 1987. He will help to format the disaster planning for the township and will be looking after the welfare of Mo-Com, which will be included in the planning.

W3888 opened a discussion on the possibility of purchasing a new repeater. A lengthy discussion followed ending with a proposal from W3IIM, that a committee be formed to study the matter and report to the board at the next directors meeting. Fred will appoint a committee for this purpose.

W3LKI began a discussion of the possibility of a plaque in memory of W3AWH, to be a permanent installation at W3TKQ. It was agreed that something should be done when TKQ is moved to its new and permanent home.

Fred made a proposal to permanently change Article 12 Section 8 of the bylaws. The formal proposal will be published in the January BLURB and be voted on at the February general meeting.

The meeting was adjourned at 9:26 P.M.

Thanks to Hal and Marian for their hospitality and the goodies.

W3IIN Hon. Secretary.

Landslide winner of the IDUABMUG award was our fanciful boatman, K3PHC. The Lady Phil-Monter award was won by Lillian Jars, and the LeRoy Hauser award by W3KN, George Weed.

W3CW

Bernard L. Elfman, 82 who helped to equip movie theaters for sound, died Monday November 17, 1986 at Lankenau Hospital. He lived in Merion.

Mr. Elfman, an electrical engineer, was a graduate of Central High School and Pennsylvania State University. As an employee for RCA, he was responsible for the installation of sound systems in major movie theaters along the East Coast.

He was a member of Reform Congregation Keneseth Israel and of the Phil-Mont Mobile Radio Club.

He is survived by his wife Esther, a daughter Dorothy Fread, a granddaughter, and a sister.

Addition by W3IM, Jay Gall

Barny was originally known as 3CW, before the use of the prefix 'W'. He was born on January 11, 1905. After graduating from Central High he enrolled as a pre-med student at the University of Pennsylvania about 1921.

In 1922 he went to sea as a radio operator aboard the Sun Oil Co's "Sunbeam" tanker. He only did this for about a year, and then entered Penn State and studied electrical engineering, graduating about 1926. He was employed by RCA and was one of the first Philco and TV distributors in the Philadelphia area.

He was an amateur with his one and only call W3CW until his death. Barny loved CW above all other modes of transmission, and was a great asset to amateur radio.

HAMFESTS
(Spring is coming!)

We will print an ongoing schedule of Hamfests based on information received. Please help us keep our list current. To be printed in this column, YOU must send it to W3IIM prior to BLURB deadline.

FIRST "LADY PHIL-MONTER" SUCCUMBS

The first Lady Phil-Monter, Peg Schmilewske, K3KUD's XYL, died Saturday, December 6, after an extended illness. Memorial services were held December 11 at Gloria Dei Lutheran Church in Bethayres.

In November of 1962, club president W3CDY presented Peg with the "Lady Phil-Monter" award at the club's annual dinner-dance, attended by 210, at the Llanerch Country Club for her interest and effort in getting the BLURB to press while Bob (then BLURB editor) was gallivanting around Europe, and their son was recovering from an accident.

UT DE SAY?

Most folks don't seem to realize that these newfangled synthesized rigs work differently than the old tube jobs. How many times have you missed someone's first word because they started talking too quickly after keying the mike? You see, the synthesizer has been tuned to the receiving frequency while listening, then, upon depression of the push-to-talk button, it has to jump 600 KHz and lock in before it can begin to transmit. All that takes only a fraction of a second, but it's often enough to lose the first syllable, if not the first word of a quick reply. How often have you heard what seemed like a hiss, when what was really intended was a one-word reply like "Yes?" --- Just give it half a second before talking; that's all it takes.

CODE PRACTICE NET

The Warminster Amateur Radio Club sponsors a code practice net each Monday night at 7:00 PM. The net meets on the club repeater, WA3DFU, at a frequency of 147.09, and the net control is Joe, KA3JEG. Joe will take requests for code transmissions at any speed, and is set up to give a variety of formats, including plain text, FCC style QSOs, random characters, and call signs. If you are just learning the code, he can send specific letters you need to practice. For those who can't check-in on two meters, a phone number is provided, and requests made by phone will be relayed on the air.

The net is open to anyone wishing to participate. Whether an aspiring novice or a seasoned CW operator warming up for a contest, we can all use a little practice. Please check in and take advantage of this service.

AND HER BI-CEN COMING

Here follows a condensation of a letter sent to the Delaware Valley Council of Amateur Radio Clubs (DVCARC) by Steve White, WA3IAO

SUBJECT: Special Events Station: Bicentennial Celebration of the U.S. Constitution.

During 1987, Philadelphia will be host to the "We the People 200 Celebration" commemorating the 100th Anniversary of the United States Constitution. As an attorney and native Philadelphian I appreciate the special historical significance which this event represents throughout the world and to our region in particular.

There is a major role for Amateur Radio during this celebration. Not only can we "advertise" the existence of the event by operating a Special Events Station, but we can also generate substantial interest among visitors to the station to become licensed Hams themselves.

DVCARC has approached the National Park Service (NPS) for permission to operate a Special Events Station within the Visitors' Center, 3rd and Chestnut Streets, Philadelphia. A site tour of the Center with the Park Ranger in charge was very promising and a tentative location has been "staked out" behind the Bookstore area near a separate entrance.

NPS presently has a security dispatch room on the second floor above the proposed location and there is no major problem using the roof for antenna installation. There are 5-6 small VHF/UHF FM antennas already on this roof. We have some concern about intermod problems with the security system which would have to be tested prior to any final decision on bands, power levels, modes, etc. There is at least one other area within the building we could use if necessary, although an interactive computer exhibit near the alternative location could present some TVI problems of its own.

If we decide to proceed, a test with a van equipped low band antenna system should be arranged as soon as possible to resolve this RFI concern. If the problem remains substantial, the fall back position would be to approach the City of Philadelphia to set the station up at the Port of History Museum on Penn's Landing.

It is proposed to have the station in place from May 1, 1987 through October 31, 1987, with primary operations scheduled from May 13, 1987 ("Promise of Permanency" computer exhibition formally opens at the Visitors' Center) through September 30, 1987. This is a twenty week period, with room for some extensions if desired.

Each DVCARC affiliated club could adopt a week to operate the station, with weekends mandatory and weekdays optional. 2-3 operators per day would appear to be required to keep the station on the air from 9:00 am through 5:00 pm, the normal business hours at the Visitors' Center. Weeks would be assigned by lot with each club choosing a week until all are assigned. Nonaffiliated operators would be asked to contact the club assigned for the specific week to participate with that group.

A "brainstorming" session indicated several approaches to the actual station configuration. Each of these alternatives is presented below:

PLAN "A"

Museum quality automated video display showing recent Ham Radio promotional tape during times when the live demonstration was not operational. Adjacent to the video display would be a fully equipped station with 80-10 meter transceiver, 2 meter FM and Packet, and 220 MHz FM. The entire operating table would be covered with plexiglass which would be locked and alarmed so that visitors could see the equipment, but could not damage anything. The operators on duty would simply remove the cover and begin operating. NPS personnel would have access to the secure areas where keys would be stored and a roster of authorized operators would be provided in advance. If an existing promotional tape was unavailable, perhaps a local tape could be produced with the cooperation of Hams at the various commercial TV stations.

Continued on page 16

1986 AWARDS

GEORGE WEED MEMORIAL AWARD

This gentleman has kept readers of the BLURB informed on current events and activities of this club. Using his superb talents, he has placed our monthly publication at the peak of amateur radio periodicals for many years. His commitment and dedication towards ham radio and this organization exemplifies that which this award is given in memory of George Weed who was indeed a highly motivated and talented individual. We present the George Weed Memorial Award to Sam Kuncovich for his graphic arts contributions in the BLURB.

LeROY HAUSER MEMORIAL AWARD

This person's interest in Public Service through amateur radio is apparent by his involvement with community events over the past few years. His organization of the clubs' public service events is marked by his attention to detail and his dedication to perfection at every activity. He made it possible for Phil-Mont to become a Special Service Club of the ARRL by completing the mound of paper work required by the League. We recognize him tonight for this commitment to Phil-Mont, Ham Radio and the community. We therefore, present Howard C. "Gil" Gilpin (W3SRU) with the distinguished LeRoy Hauser Memorial Award.

PHIL-MONTER OF THE YEAR

The members of Phil-Mont Mobile Radio Club are grateful for all this person has done to fill the ranks of amateur radio in 1986. The dedication to our hobby and personal sacrifice he has made has placed Phil-Mont at the top of amateur radio clubs in the Delaware Valley, and we are hopeful that he will continue his excellent work throughout the coming year. Because of his long-term commitment to Ham Radio the members feel that Jacob S. Kovalchek (AK2I) shall be awarded the Phil-Monter of the Year Award for 1986.

SPECIAL AWARD

W3TKQ, the club sponsored amateur radio station, is the most interesting and educational exhibit here at the Franklin Institute. The display of antique and state-of-the-art communications is talked about around the world by people young and old. This exhibit is made possible by a person who enjoys people and amateur radio alike, and even finds time to make sure that the coffee pot is hot on meeting nights. Because of his unselfish contribution to Phil-Mont, we present this award to Rolland Madara (W3PMG) in appreciation of his many hours devoted to a better club.

APPLE BYTES
